Municipal Planners

From: Dean Williams, Transportation Planner

Subject: CNHRPC Transportation Data Collection Program - 2014

Date: January 28, 2014

The Central New Hampshire Regional Planning Commission (CNHRPC), as a part of its Regional Transportation Data Collection Program, is notifying its member communities to solicit traffic count requests for the 2014 counting season. Please use the enclosed request form and return it to CNHRPC by **Friday, March 28, 2014.**

We encourage you to coordinate with all the appropriate boards, agents, and/or departments in your community so that requests are not duplicated. To assist you in choosing count locations, take time to consider any potential or recent developments in the region that could affect traffic in your community. In addition please review the traffic count history completed by both CNHRPC and the NH Department of Transportation (NHDOT) in the recent past. To create a comprehensive database for your community it is recommended to alternate count locations yearly and consider what locations should be repeated in the long term. Historic traffic data is available at <http://www.cnhrpc.org/gis-a-data/traffic-count-data.html>. Please limit the traffic count requests to ***five (5) priority locations and five (5) secondary locations*** per municipality.

CNHRPC is working to expand the regions bicycle and pedestrian count data by offering to help member communities establish bicycle and pedestrian counting programs. If your community is interested in establishing bike/pedestrian counting stations, please add the locations to the request form with contact information. You may also contact Dean Williams to further discuss this opportunity.

These traffic-counting services are being provided by CNHRPC to member communities through transportation planning funding that we receive from NHDOT. If you have any questions regarding this program, please contact me at 226-6020 or via email at dwilliams@cnhrpc.org.

Regards,

A handwritten signature in black ink that reads "Dean Williams".
