Permits Online 24/7

eCitySystems intuitive, web-enabled ePermit solution expedites, organizes and streamlines the entire permit application process.
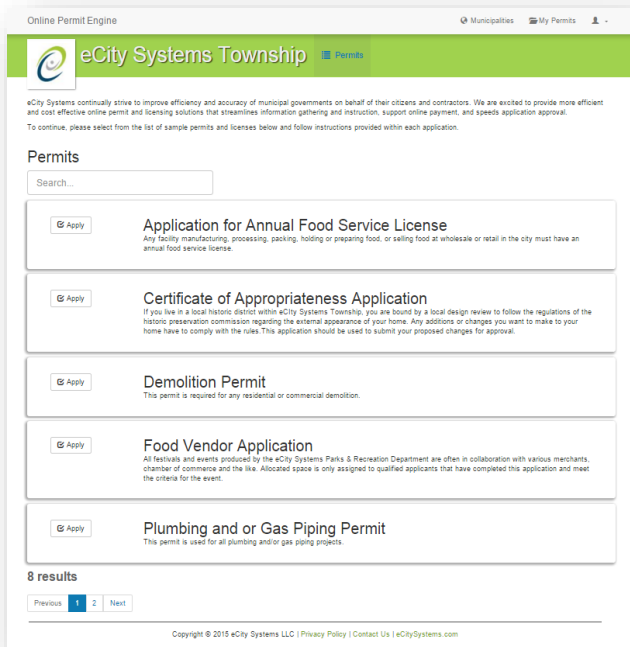

- ❖ Homeowners and Contractors start, save and complete permit applications online when and where it is most convenient for them.
- ❖ You tailor applications to your specific needs including required fields, attached files, permitting fees and instructions.
- ❖ Applicants are notified when application status changes and can obtain application status online themselves.
- ❖ Best of all - submitted applications are legible, complete, with all fees collected upfront.
- ❖ You process permit applications, acceptances, payments and final approvals via the web. Simple permits can even be issued instantly, allowing work to get started immediately.

AUTOMATE I ORGANIZE I STREAMLINE

- ❖ *Information available when you want and need it*
- ❖ *Everyone stays connected throughout the entire process*

Economical, Efficient & Effective eCity Solutions

eCitySystems is here to present a system that will organize and streamline the current arduous and archaic permits application process; a beneficial solution for everyone challenged with doing more with less via *automation*.

Automation traditionally comes with a steep cost-until now. There is no better time than the present for municipalities to establish a partnership with eCitySystems to achieve improved services for their citizens at a price you can't refuse.

Automating processes and providing e-services to your constituents reduces project task lifecycles and assists in "doing more with less". Application tasks that typically take days to complete now just take a few hours. Citizens are completing projects on their time and municipal employees are able to focus on the core job functions.
