Gain/Loss is the difference between the account balance on the first and last day of the period, after allowing for the effects of transactions.

Investment Performance Information - July 1, 2015 to September 30, 2015

The results shown represent past performance and do not represent expected future performance or experience. Past performance does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's units, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the data quoted. Performance data current to the most recent month-end may be obtained by visiting: WWW.NRSFORU.COM. Please consider the fund's investment objectives, risks, and charges and expenses carefully before investing. Both the underlying fund prospectuses and informational brochure contain this and other important information, and are available by calling (877)677-3678. Read carefully before investing. Please see other important disclosures at the end of this report.

FEE DISCLOSURES

The Standardized illustration represents performance based on a \$1,000 hypothetical investment, and reflects the deduction of the following fees:

* denotes a Fee of 0.80% # denotes a Fee of 0.70%

The participant account maintenance charge, up to a maximum of \$50, will not be assessed unless agreed to by the entity. Options in bold are options in a group variable annuity contract. Fees indicated for those options are Variable Account Expense Fees and are in addition to the fees disclosed in the underlying fund prospectus.

Gross expense ratios represent the fund's total operating expenses expressed as a percentage of the assets held in the fund. For more information about gross expense ratios, read the fund's prospectus.

Some mutual funds may impose a short term trade fee. Some funds may be subject to a trade restriction policy. Please read the underlying prospectus carefully.

PERFORMANCE RESULTS

Investment Performance Information - July 1, 2015 to September 30, 2015

FOOTNOTES

b) These funds are designed to provide diversification and asset allocation across several types of investments and asset classes, primarily by investing in underlying funds. Therefore, in addition to the fund's expenses, you are indirectly paying a proportionate share of the applicable fees and expenses of the underlying funds.

j) Nationwide Investor Destinations Funds are designed to provide diversification and asset allocation. They do this by investing in several types of investments and asset classes. So, in addition to the expenses of the Investor Destinations Fund, you pay a proportionate share of the expenses of the underlying funds.

l) The Target Destination Funds invest in a wide variety of underlying funds to help reduce investment risk. So in addition to the expenses of the Target Destination Funds, you pay a proportionate share of the expenses of the underlying funds. Like other funds, Target Destination Funds are subject to market risk and loss. Loss of principal can occur at any time, including before, at or after the target date. There is no guarantee that target date funds will provide enough income for retirement.

RISK DISCLOSURES

Money market funds: Money market funds are not insured or guaranteed by the FDIC or any other government agency. Although the goal of a money market is to preserve the value of an investment at \$1 per share, it is still possible to lose money.

International/emerging markets funds: Funds that invest in international stocks face risks that funds investing only in U.S. stocks do not. Currency fluctuation, political risk, differences in accounting standards and the limited availability of information may make these funds less stable.

Small company funds: Small and emerging companies may have less liquidity than larger, established companies. Therefore, funds investing in stocks of small or emerging companies may face greater price volatility and risk.

High-yield bond funds: Funds that invest in high-yield securities may have more credit risk and changes in price than funds that invest in higher-quality securities.

Non-diversified funds: Funds that invest in a single industry or small number of securities may be more volatile than those that invest more broadly.

Government bond funds: These funds invest mainly in securities of the U.S. government and its agencies; however, these entities do not guarantee the value of the funds.

Real estate funds: Funds that invest mainly in real estate are sensitive to economic and business cycles, changing demographic patterns and government actions.

IMPORTANT DISCLOSURES

Investing may involve market risk, including the possible loss of principal. Certain underlying funds discussed here are only available as investment options in group variable annuity contracts issued by life insurance companies. They are not offered or made available directly to the general public. These portfolios contain different investments than similarly named mutual funds offered by the money manager and investment returns may be higher or lower.

Inception Date is the date the underlying fund was established. Non-Standardized performance for UIOs includes hypothetical performance for periods before the UIO was available in the annuity, where applicable, applying contract charges to actual fund NAVs to determine the performance the UIO would have achieved inside the separate account.

Performance numbers in the YTD (Year To Date) column are not annualized returns and represent the total percentage change in unit value from the beginning of the year to the date of this report.

Fund category data provided by Morningstar®. © 2015 Morningstar, Inc. All Rights Reserved. Although data is gathered from reliable sources, data accuracy and completeness cannot be guaranteed.

Distributions of contributions and earnings from the Roth account are tax free if contributions have been in the Roth elective deferral account for a period of at least five (5) tax years and the participant is at least 59½ years old at the time of the distribution.

Dear Official:

Nationwide Retirement Solutions is pleased to provide you with this Investment Activity Report for your 457 Plan.

This report is a tool that will help you complete financial reporting requirements for IRC Section 457 plans under Governmental Accounting Standards Board (GASB) Statement #32. GASB #32 states that if a governmental jurisdiction acts in a fiduciary capacity, they should report the assets of their plan, along with a corresponding liability to the participants of the plan, in the government's Expendable Trust Funds.

Please note that this report is separated into 3 columns. The accumulation column represents assets deferred into the plan through payroll deductions. This is the amount you are used to seeing on the Financial Activity Confirmation Statement. The payout column represents annuities purchased by retired employees with the assets from their deferred compensation plan under the Plan's group annuity contract with Nationwide Life. These employees receive payments from this fund periodically. The third column is the total of both funds.

The report will be generated and sent to you following the close of each calendar year quarter. If you are not responsible for financial reporting, please forward the report to your accounting department.

Thank you for your assistance and should you have any questions pertaining to the report, please contact our Customer Service Center at 1-877-677-3678.

Sincerely,

Kim K. Daniel
AVP, Processing, Administration, Contact Center
