TO SELECTMAN TOWN OF ALLENSTOWN

In reference to the trash pickup. My apartment is occupied by 3 tenants who are disabled and on SS disability. There is only two barrels of trash that is picked up 1 for the back apartments and 1 for the front apartments. On the day they pick up recycling there is also only 1 for the back and one for the front. Single houses on that street have more trash than there is there. A dumpster is not feasible as it would have to be put close to the street because of the power lines. This would be an eyesore not to mention what would happen to property values on that street. Plus I would have people putting their trash in my dumpster where it would be close to the road and in easy access to them. Due to the fact that the tenants cannot go to the transfer station because of health issues I feel with this small amount of trash that the town going by can pick this up.

Sincerely,

A handwritten signature in cursive script that reads "Victor A Martin Sr".
