## AGENDA for Hazard Mitigation Plan Update

### 1 Introductions, Complete Meeting Match Timesheet

### 2 Board of Selectmen Public Information Meeting 08-10-20 Comments

- See Minutes of 08-10 BOS meeting on file at Town.
- Public Comments: A Board member has provided CNHRPC with a list of suggested revisions to the HMP related to the terms “climate change”, “global warming”, and related to avoid any seeming politicizing of document.

### 3 Consider Revisions to the Hazard Mitigation Plan (3 attachments)

- Refer to attached [public comments for climate change revisions](#) for the list of 10 comments.
- Refer to attached [response to climate change comments](#) from a Haz Mit Committee member who cannot attend today’s meeting.
- Compare to the [affected pages of the HMP](#) (also attached).

### 4 Consensus Vote of Hazard Mitigation Committee

- Discuss and vote on each item raised. **Who is taking & holding the official record of the vote?**
- **No changes to HMP can occur at the BOS adoption meeting after the HSEM Approvable Pending Adoption (APA) conditional approval is provided.**

### 5 Overview of New ESTIMATED Timeframe for HMP Approval Process

- Oct 15 - Submit Plan for APA  
CNHRPC submits Plan to HSEM for conditional approval (APA) and works with HSEM (and Town if needed) on changes they require.
- Dec 1 – 15 - Receive APA
- Dec 15-Dec 30 - Hold BOS Adoption Meeting  
CNHRPC helps Town prepare for Board of Selectmen adoption of Plan at public meeting. BOS members and Town Clerk sign a Certificate of Adoption.
- Jan 1 – Jan 15 – Submit Plan for Formal Approval  
CNHRPC compiles final draft docs & submits Plan to HSEM for Formal (final) Approval. Have to wait for draft meeting minutes and the signed Certificate of Adoption to become available before submission.
- Jan 15 – Feb 1  
Receive notification & letter of Formal Approval to restart the 5-year cycle

*However, HSEM tries hard to approve the HMPs for APA & to issue Formal Approval before the end of the year when possible when Plans are submitted in the fall! The timeline can run faster and is always variable.*
