

# Warner First Response and Brush Trucks

Warner's first response and brush trucks reflect the quality and value for which the company has built its longstanding reputation. Each unit is constructed to match customer needs and specifications. Constructed of heavy-duty galvanneal steel or light-weight aluminum, each unit is designed to exceed customer expectations. For style, affordability and durability, Warner is the best choice for your department. Contact one of Warner's associates today to help you design your department's next rescue or brush truck.

## Common Features and Benefits

- Customers can choose between swing doors and aluminum roll-up doors giving custom access to compartments
- Sweep out compartments allow for easier cleaning and usage
- Interior body packages designed to meet customer needs
- Polished aluminum treadplate dressing along bottom, front bulkhead and rear bumper
- Three styles of fuel fills and four styles of wheel wells add customization
- A60 Galvanneal steel construction or aluminum construction provide superior rust resistance
- Double panel door construction adds durability

## Team with Warner for a brush truck that **meets your specific needs**

The Brownsburg, Indiana, fire department partnered with Warner on their new brush truck. Rather than choose a cookie-cutter truck, they worked with Warner to create a truck that met their needs. Warner can do the same for you!
