Re: Welfare Guidelines

In 2016 it was determined we needed to update our current Welfare Guidelines. After contacting other agencies and current landlords I have attached new proposed guidelines rates to determine eligibility. You will see an increase in the food line based on New Hampshire food stamp allowances. After talking to surrounding agencies you will see an overall decrease in personal hygiene products / maintenance. Transportation has a slight increase.

After surveying landlords either by email, phone call or current rental forms I have determined new rental rates. Please see attached spread sheet which list all proposed rates for 2017.

If there are any questions or concerns please contact me.
